

# ANNOUNCEMENT

## List of environmentally preferable products

H.E. Sheikh Hamdan Bin Mubarak Al Nahyan, Minister of Public Works has launched the sustainable initiation for all Ministry's projects, and declared 2011 to be the year of Sustainability. Therefore, the Ministry of Public Works intends to establish a list of local available environmentally preferable materials (green construction materials) and their suppliers. So, could you kindly provide us with your list of sustainable construction products and green building materials, if any, with full detailed specifications indicating their efficiency in energy and water consumption, safety (low or free of Lead, CFC, VOC) durability, U-values, R-values, SHGC, VT, SRI, whole life performance, ... The list with certified specifications should be provided as Hard and Soft Copies (CD) to the Technical Studies Department, Fourth Floor, Ministry of public works, Dubai.

If you require any clarifications in relation to our request, please address the same in writing to MoPW or contact Dr. Salaheddine Issa (050 1323926; 04 2125736). *T* *hanks for your cooperation*
